

722.9 Speed Sensor Replacement

PART # **89730K**

Speed Sensor Kit with Tool

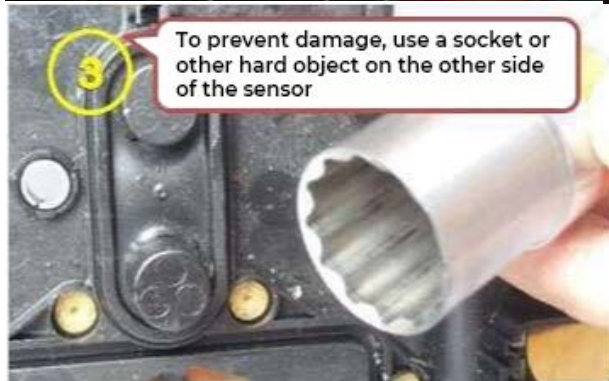

This is an aftermarket replacement kit that includes the speed sensors and a tool to help remove them from the mechatronic.

1. The speed sensor kit will only work with the two mechatronic types below

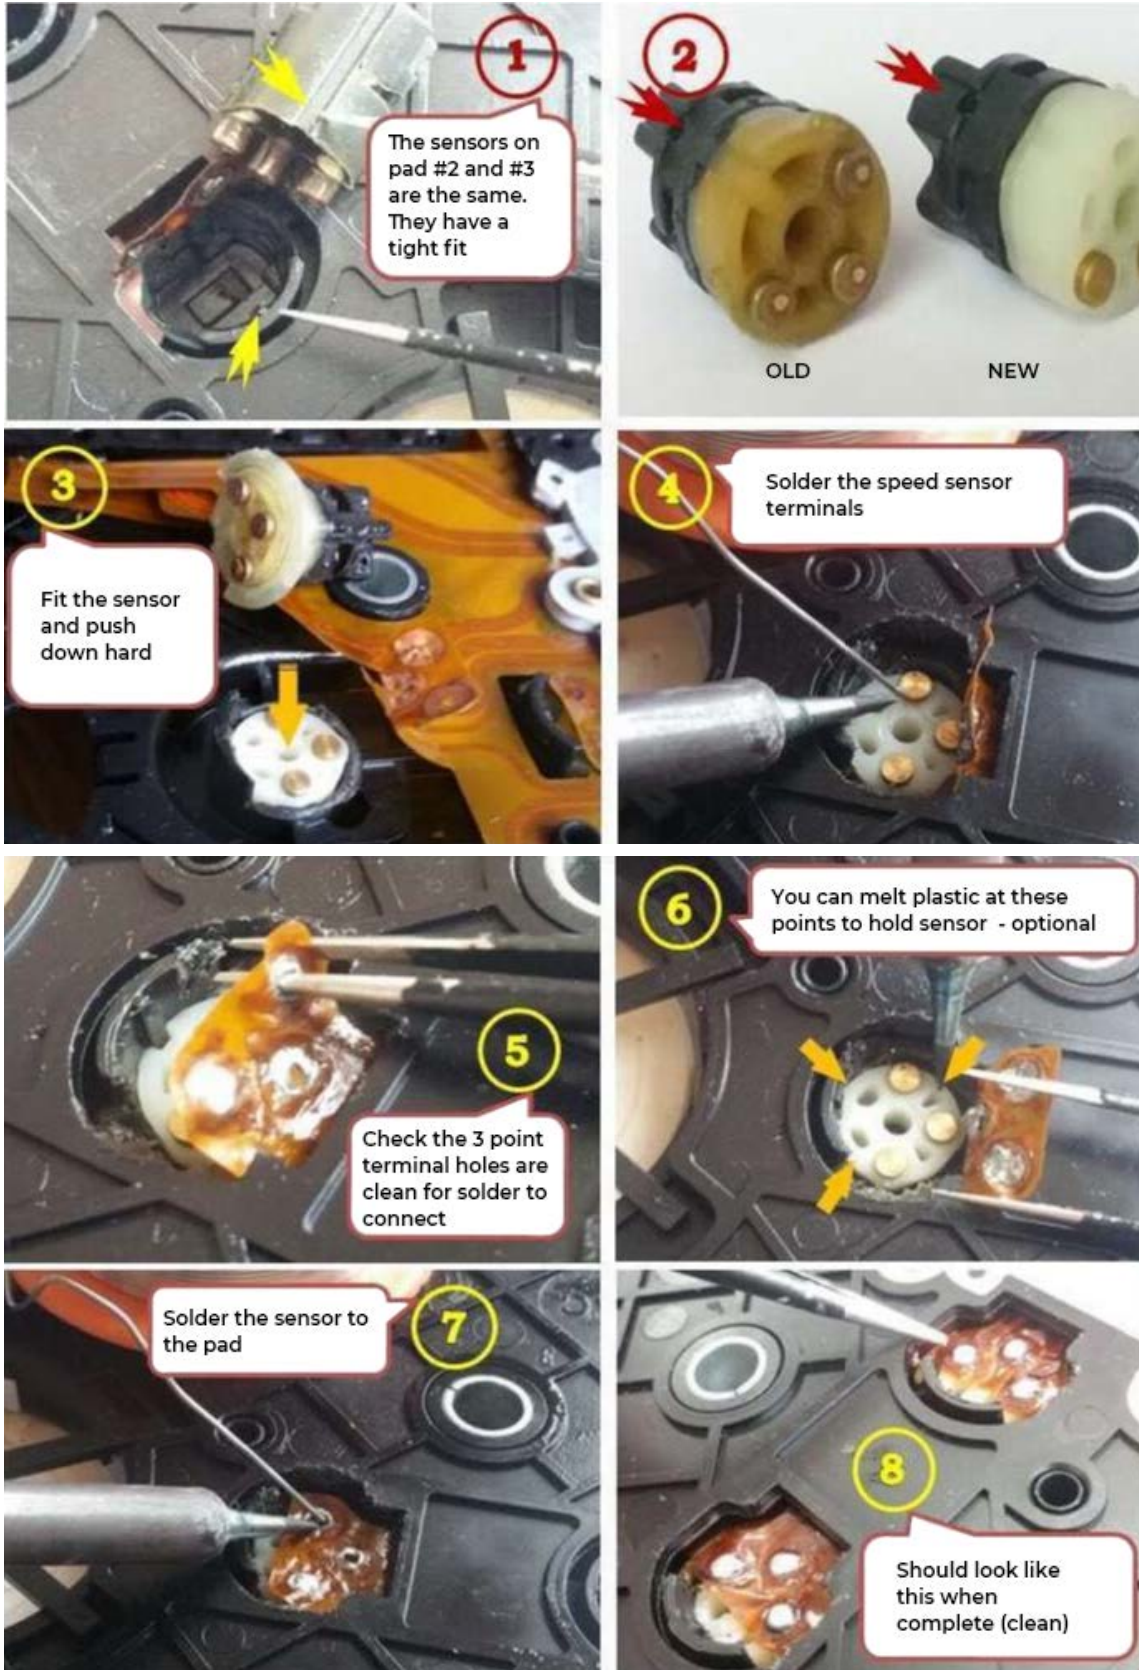

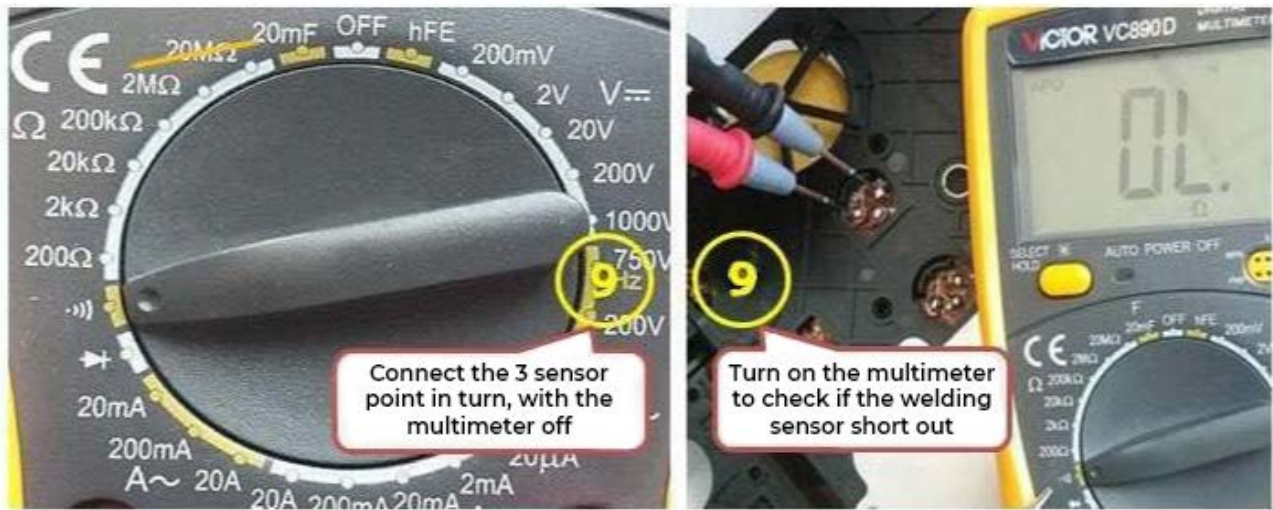

2. Remove the sensors

3. Install

Check carefully for cold solder faulty joints or short from solder.
Use a multimeter testing all 3 terminals with each other.
