

## GM 4L60-E, 4L65-E, 4L70-E

### Reinforced Input Housing Kit with Heavy Duty Input Shaft

#### Part No.

## 77733-15K

- Input Housing with 300mm Input Shaft Assembly
- Input Drum Reinforcement Sleeve – Installed
- Overrun Piston
- Overrun Piston Inner Seal
- Overrun Piston Outer Seal

**NOTE:** Fits 300mm reluctor style units only.

**WARNING: Use Stamped Steel Forward Piston**

This kit must be used with a '97-later stamped steel forward piston (**Figure 1**). It cannot be used with '96-earlier aluminum forward piston or Sonnax billet forward piston 77764-01.

**WARNING: Use Dual-Cage Return Spring**

This kit must be used with a '97-later dual cage return spring (24206085), identified by stamped retainer on both ends of the springs (**Figure 2**). Although not required, the '96-earlier style return spring is about 10% stronger and preferred for high RPM applications. To use the early-style return spring, swap the bottom spring retainer from a '97-later spring onto the '96-earlier spring.

**Instructions**

Reassemble, using normal rebuild procedures.
